Re: Commonwealth v. William Dick and
Chemical Leaman Tank Lines, Inc.
No. 345 Commonwealth Docket 1970

Dear Carl:

I understand that the proposal by the Defendants for abatement of the problem with the lagoons has either been carried out in full or is approaching that point. Will you please verify the status of the situation and advise me at your earliest convenience.

If the problem has been satisfactorily abated, it would be my suggestion that we enter into a written Stipulation withdrawing the Commonwealth Court action.

Yours very truly,

METZGER, HAFER, KEEFER, THOMAS AND WOOD
